Things Citizen Advocacy wants to do

There are things that our organisation wants to do.

This is called our **mission**.

Our mission has 4 **values**.

Values are things that help us know how to do something the right way.

We will tell you more about our 4 values next.

1. Support people

Value 1 is about supporting people.

That means we match people with disability with a **citizen advocate**.

The **citizen advocate** supports them to

- Speak up about their rights
- Make their own choices
- Do things on their own.

2. Taking part in their community

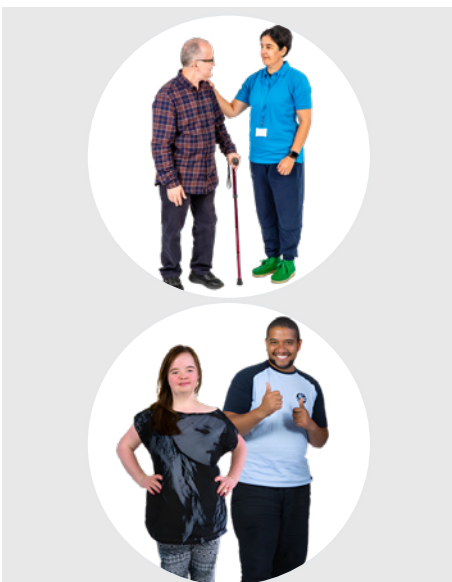

Value 2 is about people taking part in their community.

We support citizen advocates so they can work well with the person with intellectual disability.

They support people with intellectual disability to take part in their local community.

This supports them to feel

- Not alone
- That they belong.

3. Connect with other people

Value 3 is about connecting with other people.

We connect the person with disability with a citizen advocate.

The citizen advocate will become someone like a friend who helps and supports them.

4. Respect

Value 4 is about showing respect for other people.

We always show respect for people with disability.

We make sure everyone has a fair chance to do what they want in their community.

Thank you

We would like to say thank you to all the people who help us do our work.

Those people are our

- Citizen advocates
- **Volunteers**
- **Board members.**

Volunteers are people who choose to work with us but do not get paid.

Board members are people who make the big decisions about our organisation.

We thank the Department of Social Services for the money they give us.

We thank Lotterywest for giving us money to do our projects.

We thank the Western Australian Symphony Orchestra for free concert tickets for people in our program.

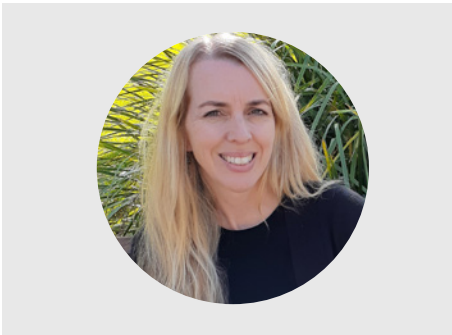

We thank Volunteering WA for supporting us with money to do volunteer events.
